

Word Attack Skills – Extension Program

literacy intervention program

The Word Attack Skills – Extension Program teaches strategies to help struggling readers tackle multi-syllable words with confidence.

Who is it for?

The Word Attack Skills – Extension Program is designed for students who have finished the Reading Tutor Program (RTP) but still require additional support, as well as older students who:

- Have learned basic decoding skills but are still finding it hard to improve their reading to a level where they can access the more academic demands of the curriculum, or
- Are finding reading laborious, lack fluency and have become demotivated.

Program content

Following on from the Word Attack Skills component of the RTP, the Word Attack Skills – Extension Program takes students through more complex letter combinations, affixes and multisyllable words.
