MultiLit
Literacy Centres

Your local literacy experts

- **One-to-one literacy intervention programs for struggling readers**
- **Term and holiday programs available**
- **In-centre or online instruction available**
- **Programs for Foundation, primary and secondary students**

Our mission is to ensure that every child learns to read

MultiLit Literacy Centres offer personalised, intensive tuition based on the latest research into how children learn to read. Our programs are delivered by MultiLit's highly trained tutors, either in-centre or online via one-to-one videoconferencing. We offer proven programs to improve reading accuracy, fluency, comprehension and spelling.

Who is it for?

MultiLit Literacy Centre programs have been specifically designed for school students whose literacy skills are at a level considerably lower than their peers and are at risk of being left behind. If your child is struggling with reading, we can help.

Literacy support that works

We track the progress of all our students to ensure they meet their literacy goals, and to tailor programs to suit individual needs. Analysis has shown a substantial improvement in literacy skills on our programs over two terms, with students making gains (on average) of:

- 13 months in word reading
- 13 months in spelling
- 18 months in decoding
- 13 months in passage reading accuracy
- 11 months in passage reading comprehension

Programs available

MultiLit Literacy Centres offer a range of individualised programs including:

- **Early Literacy Skills Program** – for children in the early years of school
- **MiniLit Sage** – for Year 1 and Year 2 students
- **Reading Tutor Program** – for Year 2 through to adults
- **MacqLit** – for Year 3 upwards
- **Word Attack Skills – Extension** – for Year 4 upwards
- **LanguageLift** – for children with oral language difficulties, or English as an Additional Language
- **Comprehension** – for Year 1 upwards
- **Writing** – for all ages

MultiLit conducts a literacy assessment prior to students commencing in our Literacy Centres, to determine which program would be most beneficial for the student.
